IRVING WEISS
Assistant Chief

IMPORT STATISTICS
William C. George

REPORT No. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products is withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-and-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest edition of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. Figures followed by an asterisk represent group total for imports from designated countries of origin. See table of contents and Import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription: Domestic..... $1.75
Foreign..... 2.25
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).
